

PAINE'S CELERY COMPOUND

Makes Nerve Fibre and Nerve Force, Cleanses the Blood and Strengthens and gives Tone to Every Function of the Body.

"As a medicine for doing immediate and effective work in sickness, resulting from impaired nerves and impure blood, my family considers your Paine's Celery Compound without a peer." "It strengthens and gives tone to the system." "It has saved many a doctor's bill."

So writes J. J. Donahue, chief of police of Omaha, to the proprietor of this, never-failing-remedy. Paine's Celery Compound makes nerve fibre and nerve force, and imparts true health to body and brain. It is the only known, positive cure for nervous prostration, resulting from business responsibilities, irregular habits and over work.

Paine's Celery Compound is the one great remedy for dyspepsia and weak nerves. Dyspepsia is caused by acute inflammation of the nerves centered about the stomach. Palpitation of the heart, dizziness, cardialgia and distention of the stomach are common in dyspepsia. Languor and irresistible drowsiness are certain symptoms. Paine's Celery Compound keeps the muscular walls of the stomach in vigorous action until the process of digestion is made complete. It restores energy, gives renewed vigor to all affected parts, checks dizziness and allays heartburn. It is a safe and reliable cure for nervous dyspepsia.

Paine's Celery Compound will build up weakened and inflamed nerves, keep the stomach, liver and kidneys in healthy action, and make mind and body healthy. It is the greatest reconstructant of the nervous system known to medical science. It permanently cures nervous exhaustion. It is particularly efficacious in all cases where the afflicted are "worn out" and "run down."

If you have the first symptoms of failing health, if you are conscious that something is wrong, that you lack strength, if the buoyant feeling of perfect health does not return after each night's sleep, it is time to give the nerves and blood the food that Nature requires. Paine's Celery Compound is rightly called Nature's medicine. Medical science has failed to produce its equal as a nerve tonic and vitalizer. It purifies the blood,

restores to healthy action every function, remedies depression and languor, strengthens the kidneys to perform properly their work, allays indigestion and gives tone to the whole system. The remarkable increase in the demand for Paine's Celery Compound in the last few years is due to the one fact that every person who has ever tried a single bottle of this great restorative has found that the remedy accomplishes what no other remedy does. It accomplishes all that is claimed for it. A sample trial will convince the reader.

TO IMPROVE THE FORT

DEPARTMENT URGED TO COMPLETE STEVENS.

Astoria Push Club Wants It Used as a Headquarters for Soldiers.

A determined effort is to be made locally to induce the War Department to utilize Fort Stevens as a post for the mobilization of troops, and Secretary Lyman, of the Push Club, has been instructed to communicate regarding the matter with Senator Mitchell. Several months ago this matter was brought to the attention of the commercial bodies of this city, but before any definite results had been obtained the effort was given up. It is now thought that persistent demand will accomplish the desired end, and that Senator Mitchell will be able to induce the War Department to recognize Fort Stevens in a more general manner.

In addressing the Push Club on the matter, H. G. Van Dusen said: "I am satisfied we can induce the War Department to establish military headquarters at the fort if we persist in our efforts. Personally, I believe in kicking. Those of us who are easily satisfied seldom get as much as we are entitled to, and the only way to induce the government to act is to keep constantly at it. Fort Stevens offers the very best advantages as the headquarters of large bodies of troops, and while the War Department is thoroughly acquainted with the situation, it is the place of the commercial bodies of this city to urge action."

"Fort Stevens is particularly well adapted to the mobilization of troops on account of its healthfulness. The Presidio cannot be compared with it. Here the climate is always mild, and the bleak winds that sweep the Presidio are always mild, and not prevail at Fort Stevens. What is more, Stevens offers unsurpassed facilities for the transportation of troops, who could be marched from their quarters aboard a transport without the slightest difficulty. Of course, the officers would much prefer residence nearer a larger city, but Portland is not far distant, the trip requiring only four hours. Senator Mitchell should be urged to impress upon the department the advantages offered at the fort."

The government preserves on which the fort is built contains between 600 and 800 acres. However, the building of the jetty caused more than 1000 acres of land to be artificially provided, so there is ample room at Stevens

for all the troops that the department might wish to mobilize there. This land created by the jetty can be reclaimed at slight expense merely by seeding it. Property in the vicinity of the fort could be bought at a very low figure, so no objection could be waged on this score. It is pointed out that inland forts are being abandoned by the government and troops being removed to the coast. It is felt here that Oregon should not be overlooked in this matter, as has been done in the transport business, for which Portland made such a strong bid, and the commercial bodies feel they can rely upon the support of all the other communities of the state.

There is only one drawback at Stevens, and that is lack of water. At present the water supply comes from wells and is most unsatisfactory. Some time ago the department asked the city to submit figures for a supply of water and a most reasonable rate was made. The water commission agreed to permit the government to lay a separate main from the reservoir, or else that it would permit connection to be made to the city limits, the government to lay pipes from the fort to Smith Point. The idea of receiving water from Astoria was abandoned at that time, because it was thought the well system would prove successful. The rate made by the water commission is said to have been less than one-half that charged by the company which furnish water at the Presidio.

It is understood that the department will not cause more troops to be stationed at Stevens until the water problem is solved. An adequate supply can be obtained from the Lewis and Clark river, at a cost, it is said, of not to exceed \$50,000. Private companies have volunteered to provide a supply, but the government objects to Warrenton, Flavel and New Astoria being supplied from the mains which would run to the fort. It is believed here that the department already has planned for a water system. That Fort Stevens, which has cost to date about \$1,500,000, is intended for something more than a fortification is evident from the jealous manner in which encroachments on the preserve are prevented. Persons who have tried to build fish traps have been summarily ordered off the preserve, and it is believed extensive improvements are contemplated.

POPE'S PONTIFICAL JUBILEE.

Began at Rome Yesterday at St. Peters.

NEW YORK, Feb. 20.—The fetes attending the pontifical jubilee of the Pope began today, says a dispatch to the Journal and American, from Rome, with a Te Deum at St. Peters. Responding to congratulations the Pope is reported to have said: "My jubilee is brightened by the

fact that a minister has quit the service rather than approve of a divorce bill, which the church holds is hurtful to family, morality and concord." The resignation referred to is that of Count Guisao, the minister of public works.

IS DOMESTIC TERRITORY.

Goods May Enter Free of Duty From Pango-Pango.

WASHINGTON, Feb. 20.—The secretary of the treasury has received from the attorney general an opinion on the question of whether merchandise shipped from Pango-Pango, Tutuila, is entitled to free entry into the United States, Great Britain and Germany.

The attorney general holds that Tutuila is a domestic territory of the United States, and that our tariff laws imposing duties on goods from "foreign ports" are not applicable on goods received from Pango-Pango.

CUBAN RECIPROCITY.

Conference Held by Republican Members of Ways and Means Committee.

WASHINGTON, Feb. 20.—Republican members of the ways and means committee were in conference this afternoon on the subject of Cuban reciprocity. The conference went over without action until tomorrow.

The proposition brought forward by Representative Long, of Kansas, authorizes the president when Cuba was prepared to grant 40 per cent on all products of the island coming to the United States. This was a straight reciprocity proposition.

SAYS BOERS ARE DEMORALIZED.

Regular News of Correspondent Conveyed to London Times.

LONDON, Feb. 20.—The Pretoria correspondent of the Times, says there is no doubt but that the Boers in the Eastern Transvaal colony are greatly demoralized and that many are reluctant to continue the struggle.

In an intercepted letter from General Piet Viljoen to Mr. Schalkburg, he writes urging the latter to do something to contract the spirit of surrender among the Boers.

TO THROW OPEN LANDS.

WASHINGTON, Feb. 20.—Senator Clark, of Montana, from the senate committee on military affairs, today reported favorably the bill for the ratification of the treaty for the Crow Indians for the cession and opening of about a million acres of their reservation in Montana.

FAVORS CHINESE EXCLUSION.

SAN FRANCISCO, Feb. 19.—The board of directors of the Manufacturers' and Producers' Association, has adopted a resolution favoring the continued exclusion of Chinese, which has been sent to the California members of congress. The Merchants Exchange of Oakland has also passed resolutions to the same effect.

DIPLOMATS SNEERED AT.

PEKING, Feb. 20.—The Dowager Empress and Emperor granted a New Years audience to the diplomatic corps today. The second audience, like the first, was undignified, because of lack of order. The diplomats, on entering the hall, rushed toward the throne, scrambling for a sight of the imperial party. The official said the emperor sneered noticeably several times.

MATTESON TAKEN TO HELENA.

HELENA, Feb. 20.—Herbert H. Matteson, the self-confessed defaulting cashier of the First National bank of Great Falls, was brought to Helena and lodged in jail, in default of \$15,000 bail. Matteson said in an interview that he expected to furnish the bond in a day or two.

AWFUL LOSS OF LIFE.

LONDON, Feb. 20.—The correspondent of the Daily Mail says the seismic disturbance at Shumaka have commenced and that a fresh volcano began to erupt vigorously last Wednesday. The number killed in the Shumaka district is now estimated at 5000.

MAY LIE DOWN TOGETHER.

TOPEKA, Kas., Feb. 20.—The Populists of Kansas will hold a convention in this city tomorrow for the purpose of considering whether or not the Populist party of the state will affiliate with the Democrats in the next general election.

THE REVISED BIBLE.

The new American standard revision of the Bible brings it up to date, without changing its meaning; but do the people want any change from the original copy? Thousands will answer "No." This would also be the popular answer if you ask people who have once tried Hostetter's Stomach Bitters to use some other remedy. New medicines come and go, but this old reliable remedy continues to be the favorite, because it can always be relied on in the most severe cases of indigestion, dyspepsia, flatulency, nervousness, constipation or biliousness. We would feel its beneficial effect from the start, and it will eventually restore you to perfect health. Our Private Die Stamp is over the neck of the bottle.
